Notable among the above are: Apprentice B L Swam first Naval Shipwright Apprentice to cross train in Steam Marine Engineering and to be promoted to the rank of Commander Engineering of the Special Duties List; and Apprentice J G O'Neill the first HMAS NIRIMBA Apprentice to return to HMAS NIRIMBA in the posting of Training Commander which he did in 1982 after a distinguished career in the Submarine Service of the RAN.

Prizes and Awards

The Governor General's Prize is awarded to the most outstanding apprentice in each half yearly intake and takes the form of an inscribed silver salver. The criteria used for selecting the winner include Divisional Officer's Assessment, Dress and Bearing, Duties and Responsibilities, Conduct, Sporting Achievement, Training Performance, Captain's Commendations and Expedition Training Performance. This is a discretionary prize and is only awarded if an apprentice meets the very high standards that have been set.

Winners of this coveted award to date have been:

The Apprentice Week Committee headed by the Apprenticeship Commissioner of New South Wales, makes two types of awards to apprentices. A silver medal is awarded for the State Apprentice of the Year and a bronze medal is awarded to the Leading Apprentice in each Craft. The Apprentice of the Year is selected from those who qualify as Leading Apprentice and the criteria used to select the winner includes interest allied to craft or trade, ability to communicate, community activities and future intentions. The Leading Apprentice in each craft is selected on the basis of results obtained in a trade course together with a high standard of work and conduct. The Apprentice of the Year also receives the Study Tour Award which has included an all expenses paid study tour overseas.

Apprentices from HMAS NIRIMBA are eligible for the Apprentice of the Year and Leading Apprentice Awards. The Leading Naval Apprentice for 1973 was AMTP P W Beveridge. Apprentice Ellis Higgins won the award in the Leading Radio Fitter and Apprentice Patrick Wright won the award for Leading Ground Engineer (Aircraft) in 1980.

In 1921, a wealthy Victorian Grazier died and his will included provision for the establishment of a perpetual trust for the award of prizes for outstanding performance to members of the Armed Forces of the British Commonwealth Nations and to members of the Armed Forces of Australia. The annual income from the trust fund for the RAN is about three thousand dollars for the provision of prizes and awards. Two major prizes of one thousand dollars each are awarded annually, one for officers and one for sailors. The basis for selection comprises pre-eminence in academic ability, professional attainment, sporting proclivities, character and leadership. In addition, a number of smaller prizes are awarded for outstanding performance under training. The criteria used are similar to those used for the Governor General's Prize. Peter Mitchell prize winners in HMAS NIRIMBA have been:

The P J Bourke Memorial Award was set up by the parents of Naval Shipwright Apprentice P J Bourke who was killed in December 1965 whilst returning to his home on long leave. Apprentice Bourke had attained outstanding results himself under training and the award set up to commemorate his memory by his parents is given to the most outstanding Naval Shipwright (Marine Hull Engineering) in each passing out class. The trophy is engraved with the winner's name and in addition to the trophy the winner receives a personal prize purchased from the Commanding Officer's Fund.

Winners of the P.J. Bourke Memorial Award have been Naval Shipwright Apprentices:

The Herbert Loft Trust Fund was set up many years ago to reward and encourage efficiency in the Navy. Money is allocated from Great Britain to the RAN on an annual basis for payment to the best qualifiers in a variety of courses. In HMAS NIRIMBA, awards are made from the Herbert Loft Trust Fund to the best Mechanician, Air Mechanician and Chief Marine Technical Hull qualifiers.

In recent times there have been other awards endowed upon HMAS NIRIMBA trainees and these include the Royal Malaysian Chief of Navy Prize (for Malaysian trainees only) and the Blacktown City Citizenship Prize. The Blacktown City Citizenship Prize calls for a very high standard of achievement and includes the factors of academic, religious, sporting, youth involvement, charitable works and leadership attainments. It is not awarded unless the winner comes up with a record of outstanding endeavour in all these fields.

Prizes are awarded at each passing out ceremony for the best apprentice and adult trainees of each of the fields of Air Technical, Electrical Technical, Marine Technical Propulsion and Hull.

At the passing out ceremonies, awards are also made to the most outstanding sportsman, the best apprentice Captain and Vice Captain and the best Bandsman of the passing out term.

Awards to the most outstanding sportsmen over the years are detailed in Chapter 15 - Physical Training and Sport.

In 1981, Petty Officer WRAN Writer Rosemary Rodwell endowed a memorial prize to commemorate the memory of her late husband, Naval Shipwright Edward Henry Rodwell. The prize is awarded to the best Phase Marine Technical Hull sailor of each course. Prize winners to date have been LSMTH Jeffries; ABMTH J J Bidner; ABMTH G D Payne and ABMTH Eli Price. Mrs Rodwell was present during the December 1983 graduation parade when the prize was presented to ABMTH Price by His Excellency, the Governor of New South Wales, Sir James Rowland.
